# Create a good CV

- **Stand out** - Your CV should demonstrate your unique blend of skills and experience.
- **Keep it simple** – Avoid strange fonts and bright colours.
- **Tailor your CV** – Tailor your CV towards the role you are applying for.
- **Double check** – Ensure there are no spelling mistakes or dates that clash.
- **Up-to-date** – Your CV should be fully up-to-date before you apply.
- **Silly mistakes** – Don't list a phone number or email that doesn't work / don't use an unprofessional email address e.g. "[gamerdude@hotmail.com](mailto:gamerdude@hotmail.com)"

# Employers

- What do employers expect?
- How do employers want apprentices to behave?
  - What support do employers provide?

# Don't just take our word for it...

“Employing apprentices has been really positive  
and proactive through Hart L&D”

Lawrence Tingey - HR Director, Delta Group

# Don't just take our word for it...

“Both apprentices work in Recruitment based roles, but this is a great course to give them overall HR knowledge and increase their confidence with evidence-based practice. As a result both have progressed in their career into new role.”

# Don't just take our word for it...

“Huge positive impact! I have learnt in great details about the organisation & the retail business. It has helped to build my full confidence in my work, especially to ask questions about learning new things, to confirm what I have been doing is right, to communicate with my colleagues more effectively and efficiently, to work with and provide supervision to my team members in a professional manner. I am able to strengthen my self-motivation to think, work hard. This will be beneficial for me because I love my job and I want to ensure that I am doing well always!! ”
